## Raymond Loses Twice To Cardston Nine

### Local Happenings

The Raymond Motors sold a Chrysler Coupe to R. A. Snow this week.

Things are growing very rapidly during these hot days.

Whew, but the weather has surely been hot the past few days.

Quite a number of the Stampede visitors returned home on Sunday.

A. F. Weideman spent Sunday at the Waterton National Park.

W. Paris is nearly finished with the plumbing on the new home of T. L. Halpin.

A great many local people were in Lethbridge on Wednesday afternoon, the opening day of the Fair.

W. D. Mendenhall has been entertaining relatives from Utah during the past two weeks.

O. H. Snow is putting another 33 feet on the south side of his new building. The leases are already signed up for this.

O. S. Longman and D. G. Gilbert were in Lethbridge on Wednesday judging the soil products of the Lethbridge Fair.

About the last act of the baseball season will take place when the local team plays the final game with Spring Coulee on Saturday.

The Merc. had a very attractive window of cooling suggestions for the hot days. "Tommy" Allen was responsible for the window dressing.

Monday was a scorcher, and in some places the crops looked just a trifle wilted after the hot winds had been blowing over them all day helped out by the red hot sun.

The epidemic of mumps has not quite played out yet. Children are breaking out with them every now and then, and a number of adult cases have been reported.

L. D. King and Dick Wolfe returned on Sunday evening from the Calgary Stampede, very enthusiastic about the high-class show, the welcome of Calgary to its visitors, and the enthusiasm of everyone connected with the Big Show.

The Clinic for children of school age and under will be continued at the home of Mrs. Boyson Wednesday and Thursday July 24 and 25th next week. Don't delay in making your appointments as this will finish this year's clinic and your early dating will ensure the work being done.

With the hail season drawing to its end, the prospects for a good crop get better every day. Grain is growing rapidly and a good rain anytime now would help the yield immensely making the kernels large and plump. Beets are doing well, beginning to get a trifle dry in some fields, and irrigation will commence within a few days unless we have rain.

Last Sunday evening a very enjoyable time was spent at the home of Mr. and Mrs. Bill Widgill who were entertaining a party of relatives and friends to a birthday dinner, the guest of honor being Glen Tollestrup, who caused some merriment through the manipulation of the birthday cake, coupled with the attempt to light the candles which decorated same.

Selections of music enlivened the proceedings after the refreshments including a trio rendered by Rudolph Tollestrup, W. Widgill and Glen Tollestrup. The droll stories told by Mr. C. F. Tollestrup were much appreciated.

Among those present were—Mr. and Mrs. W. Widgill and family Mr. and Mrs. C. F. Tollestrup and family Mr. and Mrs. Lee Coleman Mr. and Mrs. Rudolph Tollestrup Mr. A. R. Watmough and Mr. and Mrs. Glen Tollestrup and family.

### CROP REPORT

Canadian Pacific Railway Company

Winnipeg, Man. July 18:—Crop conditions in the west are somewhat more favorable says the Canadian Pacific Railway Agricultural Agent this morning. Rainfall in various districts running from showers to heavy precipitation. This afforded relief to many districts. Crops are still backward and while the scarcity of rain has ruined them in some parts of the prairies, they now show vigorous development but short stand grain on summer-fallow is more promising, having withstood the dry period to a much better degree than that on stubble or fall and spring plowed land. Most wheat and earlier sown coarse grains are now in advanced shot blade or headed out, but will undoubtedly be short in straw and below average yield. However given good soaking rains, the feeling is that a fair crop is yet possible, and undoubtedly it will cost less to handle. In addition to added moisture, warmer weather is needed in northern Manitoba and Saskatchewan. Coarse grains are in very good condition but generally require constant moisture. Haying is under way at some points in Manitoba and Alberta, with prospects of light crop except in southern part of latter province where growth has been good. There has been slight damage from hail during the past week, and on the whole damage in this respect has been light.

Livestock generally is in good condition although pasturage is going back in dry areas.

T. L. Halpin left on Wednesday morning on his holiday. Mr. Gatz is in charge during his absence.

A number of Raymond's young people attended the dance at Waterton Park on Saturday night.

Steel has arrived for the garage of Mehew Bros. and bricklaying will likely commence the first of the week.

Mr. Ramsay, General Manager of the Canadian Wheat Pools, will address a meeting at the Opera House, Raymond on Sat. July 20 at 4 p.m. on wheat marketing and related problems.

### STAR BECOMES GREAT ATHLETE

#### WILLIAM HAINES SKILLS SELF IN MANY SPORTS FOR PICTURE ROLES

Early every morning some weeks ago, when most of his friends were on the links knocking golf balls about, William Haines, Metro-Goldwyn-Mayer star, was leaning over the neck of a cow pony trying to knock a goal with a polo mallet, preparing for his role in "The Smart Set," a Metro-Goldwyn-Mayer production which comes to the Capitol Theatre Mon. and Tues.

Not inclined towards athletics by nature, Haines has become, within the last two years, one of the best all-around athletes on the Pacific Coast. He has skilled himself in football, baseball, golf, rowing and boxing because his starring roles in pictures demanded it.

Approaching each new athletic sport with no inclination to like it, Haines always becomes enthusiastic about it and gets to the point where he would rather engage in it than eat. Then he is cast in a production of athletics.

Following his completion of "Spring Fever," with its background of golf, Haines took to the links early every morning because he had learned to like the game. Then—just as he was becoming a parashooter—he was told his next picture, which Jack Conway would direct, would be based on polo.

He didn't practice a week before he forsook the golf links for the polo field and even went so far as to ride a cow pony just because it was more difficult to play from the back of a range horse than from a trained polo mount.

Coached by Sanford Hewitt, former varsity polo player at Yale and coach of the freshman team, Haines has now become a polo enthusiast.

The Doubleheader of Baseball on Monday resulted in a victory for Cardston in both games.

Raymond has had an attack of baseballitis during the past week, having played Wednesday last with Cardston to win 10-5, Magrath won Friday 10-9 in a rather ragged game, and on Saturday Raymond won from Magrath 16 to 6 in a merry-go-round that caused Magrath to use three pitchers in an unsuccessful attempt to stop the batting spree.

Monday was a good day for ball, and with air-tight support behind Cahoon's heaving, Cardston won 13-7 in the first game and 11-9 in the evening encounter.

Ken Alfred went the full distance on the mound for Raymond and pitched good ball until toward the latter end of the second game when his arm gave out and the visitors took a touch of him up pretty freely. The support he received was not up to usual standard, one of our surest men having a day of errors in spite of his very best efforts. Hicken behind the bat played his usual good game, but in the field the players were too anxious, and a few overthrows in the pitches gave the visitors the victory.

Cahoon went on the mound for Cardston in the first game and threw a great game. He was never in danger, and although nipped for several hits everything that went out had a handle on it and all Cardston had to do was reach out and grab it. In the second game Richardson started for Cardston but Raymond got his number in the second-innings and pounded him for six runs before he got the hook. Cahoon went back in and played nearly as good as the afternoon encounter. Three homers were knocked, two in

the first game by Richardson and Olsen of Cardston, and one in the second game by McLean of Raymond. Three base hits were made by Jensen and Cahoon of Cardston and Humphreys and Nalder of Raymond. Olsen for Cardston and McLean for Raymond pounded out 2 baggers.

SCORE BY INNINGS 1st GAME	R	H	E
Cardston 2 1 0 0 3 3 0 3—13	12	3	
Raymond 0 0 1 0 3 0 0 3—7	10	8	

LINEUP 1st GAME
Cardston—Olsen, 3rd; Cahoon, p; McKenzie, c; Richardson, 1st; Parker, 1st; Jensen, 2nd; M. Hansen, cf; L. Hansen, cf; Hughes, 2nd.
Raymond—Humphreys, 1st; McLean, 3rd; Kirkham, cf; Alfred, p; Fairbanks, 1st; Hicken, c; Nalder, ss; Henry, rf; and 2nd; Workman, 2nd; Leavitt, rf.

SCORE BY INNINGS 2nd GAME	R	H	E
Cardston 2 0 0 0 2 5 2 x—11	12	7	
Raymond 0 6 1 0 0 0 0 2—9	7	8	

LINEUP  
Cardston—Olsen, 3rd; Cahoon, 2nd and p; McKenzie, c; Richardson, p and 1st; Parker, 1st; Jensen, ss; M. Hansen, cf; L. Hansen, rf; Hughes 1st and 2nd.  
Raymond—Nalder, ss; Humphreys, 1st; McLean, 3rd; Kirkham, cf; Alfred, p; Fairbanks, 1st; Hicken, c; Henry, rf; Workman, 2nd.

L. R. Robinson, Cardston, and Solon Low, of Raymond umpired the games. These victories give Cardston the right to enter the next play-off with the winners of Blairmore, Hillcrest and Pinehear Creek teams for the semi-provincial play-offs. Good luck Cardston.

### J. E. Earl Principal at Barnwell

At the school board meeting last Tuesday it was definitely announced that the new principal for the Barnwell consolidated is Joseph Earl, former principal of the Raymond school. With such competent help in charge and the splendid staff of co-workers the next school term is bound to be up to the high standard and success as in past years. J. W. Payne Sybil Anderson, Wanda Asplund and Beth McMullin, are the teachers of the public school grades.

Reports are very favorable of the standards of the past terms, and last year's teachers who have left for other fields of labor in higher study will be greatly missed. —Lethbridge Herald.

### TIMELY FLOWER WORK

If one wants a continual supply of flowers and a trim appearance in the garden generally, all fading bloom and any suggestion of seed should be removed. The production of seed saps the vitality of any plant and will not produce flowers and seeds too. Alyssum and similar plants which produce a profusion of short-stemmed bloom may be snipped with a pair of shears when the flowers start giving place to seed, and they will send up a fresh supply of growth in about a week. After each rainfall, one must remember to loosen up the soil to conserve the moisture and let the air in. Just before the gladiolus start to bloom, it is advisable to sprinkle a little lime around the plants. This will give more depth of color to the flowers and will also sweeten the soil. Dying rose blooms, and bloom on the spirea, syringa, and other shrubs should be cut off so that all nourishment will go into the plants and produce growth for next year's flowering. It is now time to ease up on cultivation around fruit trees, shrubbery and woody vines as growth on these must be hardened so that it will not kill back next winter. It is a good plan to transplant a few well grown annual flowers around the rose bushes and shrubbery to check the growth while a cover crop of oats or vetch, or even weeds may be used for the same purpose among the fruit trees and bushes. Canadian Gardening Service.

### Is Timely Irrigation of Beets Worth \$15.00 per Acre? Ask Your Fieldman

GENERALLY, the benefit of irrigation is overestimated. GENERALLY, irrigation is too long delayed after a rain. SELDOM, is a crop hurt by too early application of water unless the amount run is excessive. High yielding growers irrigate according to the needs of the crop never the calendar. Light and frequent irrigation to keep the crop growing every day of the short growing season are the rule. A day of wilted plants is a day of growth lost.

FREQUENTLY, preparation to irrigate starts after plants have wilted and actual water is a week later. This delay repeated, with each irrigation subtracts 21 to 23 days of growth.

TO ANTICIPATE the water needs, to have water running down the rows before wilting starts, may add from two to three tons per acre to the yield—\$15.00 to \$25.00 per acre added to your beet check.

CANADIAN SUGAR FACTORIES, LTD. Raymond, Alberta.

### HANS ANDERSON ACCIDENT VICTIM

A bad accident occurred on Monday about 10 a.m. when Hans, the 13-year old son of Mr. and Mrs. Jens Anderson had the 3rd and 4th fingers of his left hand blown off requiring amputation at the second joint, and his face cut and bruised when he exploded a cap or some explosive which he had found. The accident occurred at the back corner of the hardware yard of the Raymond Merc., and when the explosion was heard followed by a scream, J. Mehew rushed out to the lad who was coming toward him covered with blood and calling get a doctor. The boy collapsed as soon as Mr. Mehew reached him and after being given first aid here, in the absence of Dr. Leech, he was rushed to Lethbridge to the Galt Hospital.

Some fears were expressed for the sight of one eye, but last reports are encouraging and it is likely he will soon be home.

Just what he had has not been determined but it apparently was exploded by pounding with a stone and the concussion caused the damage to his hand.

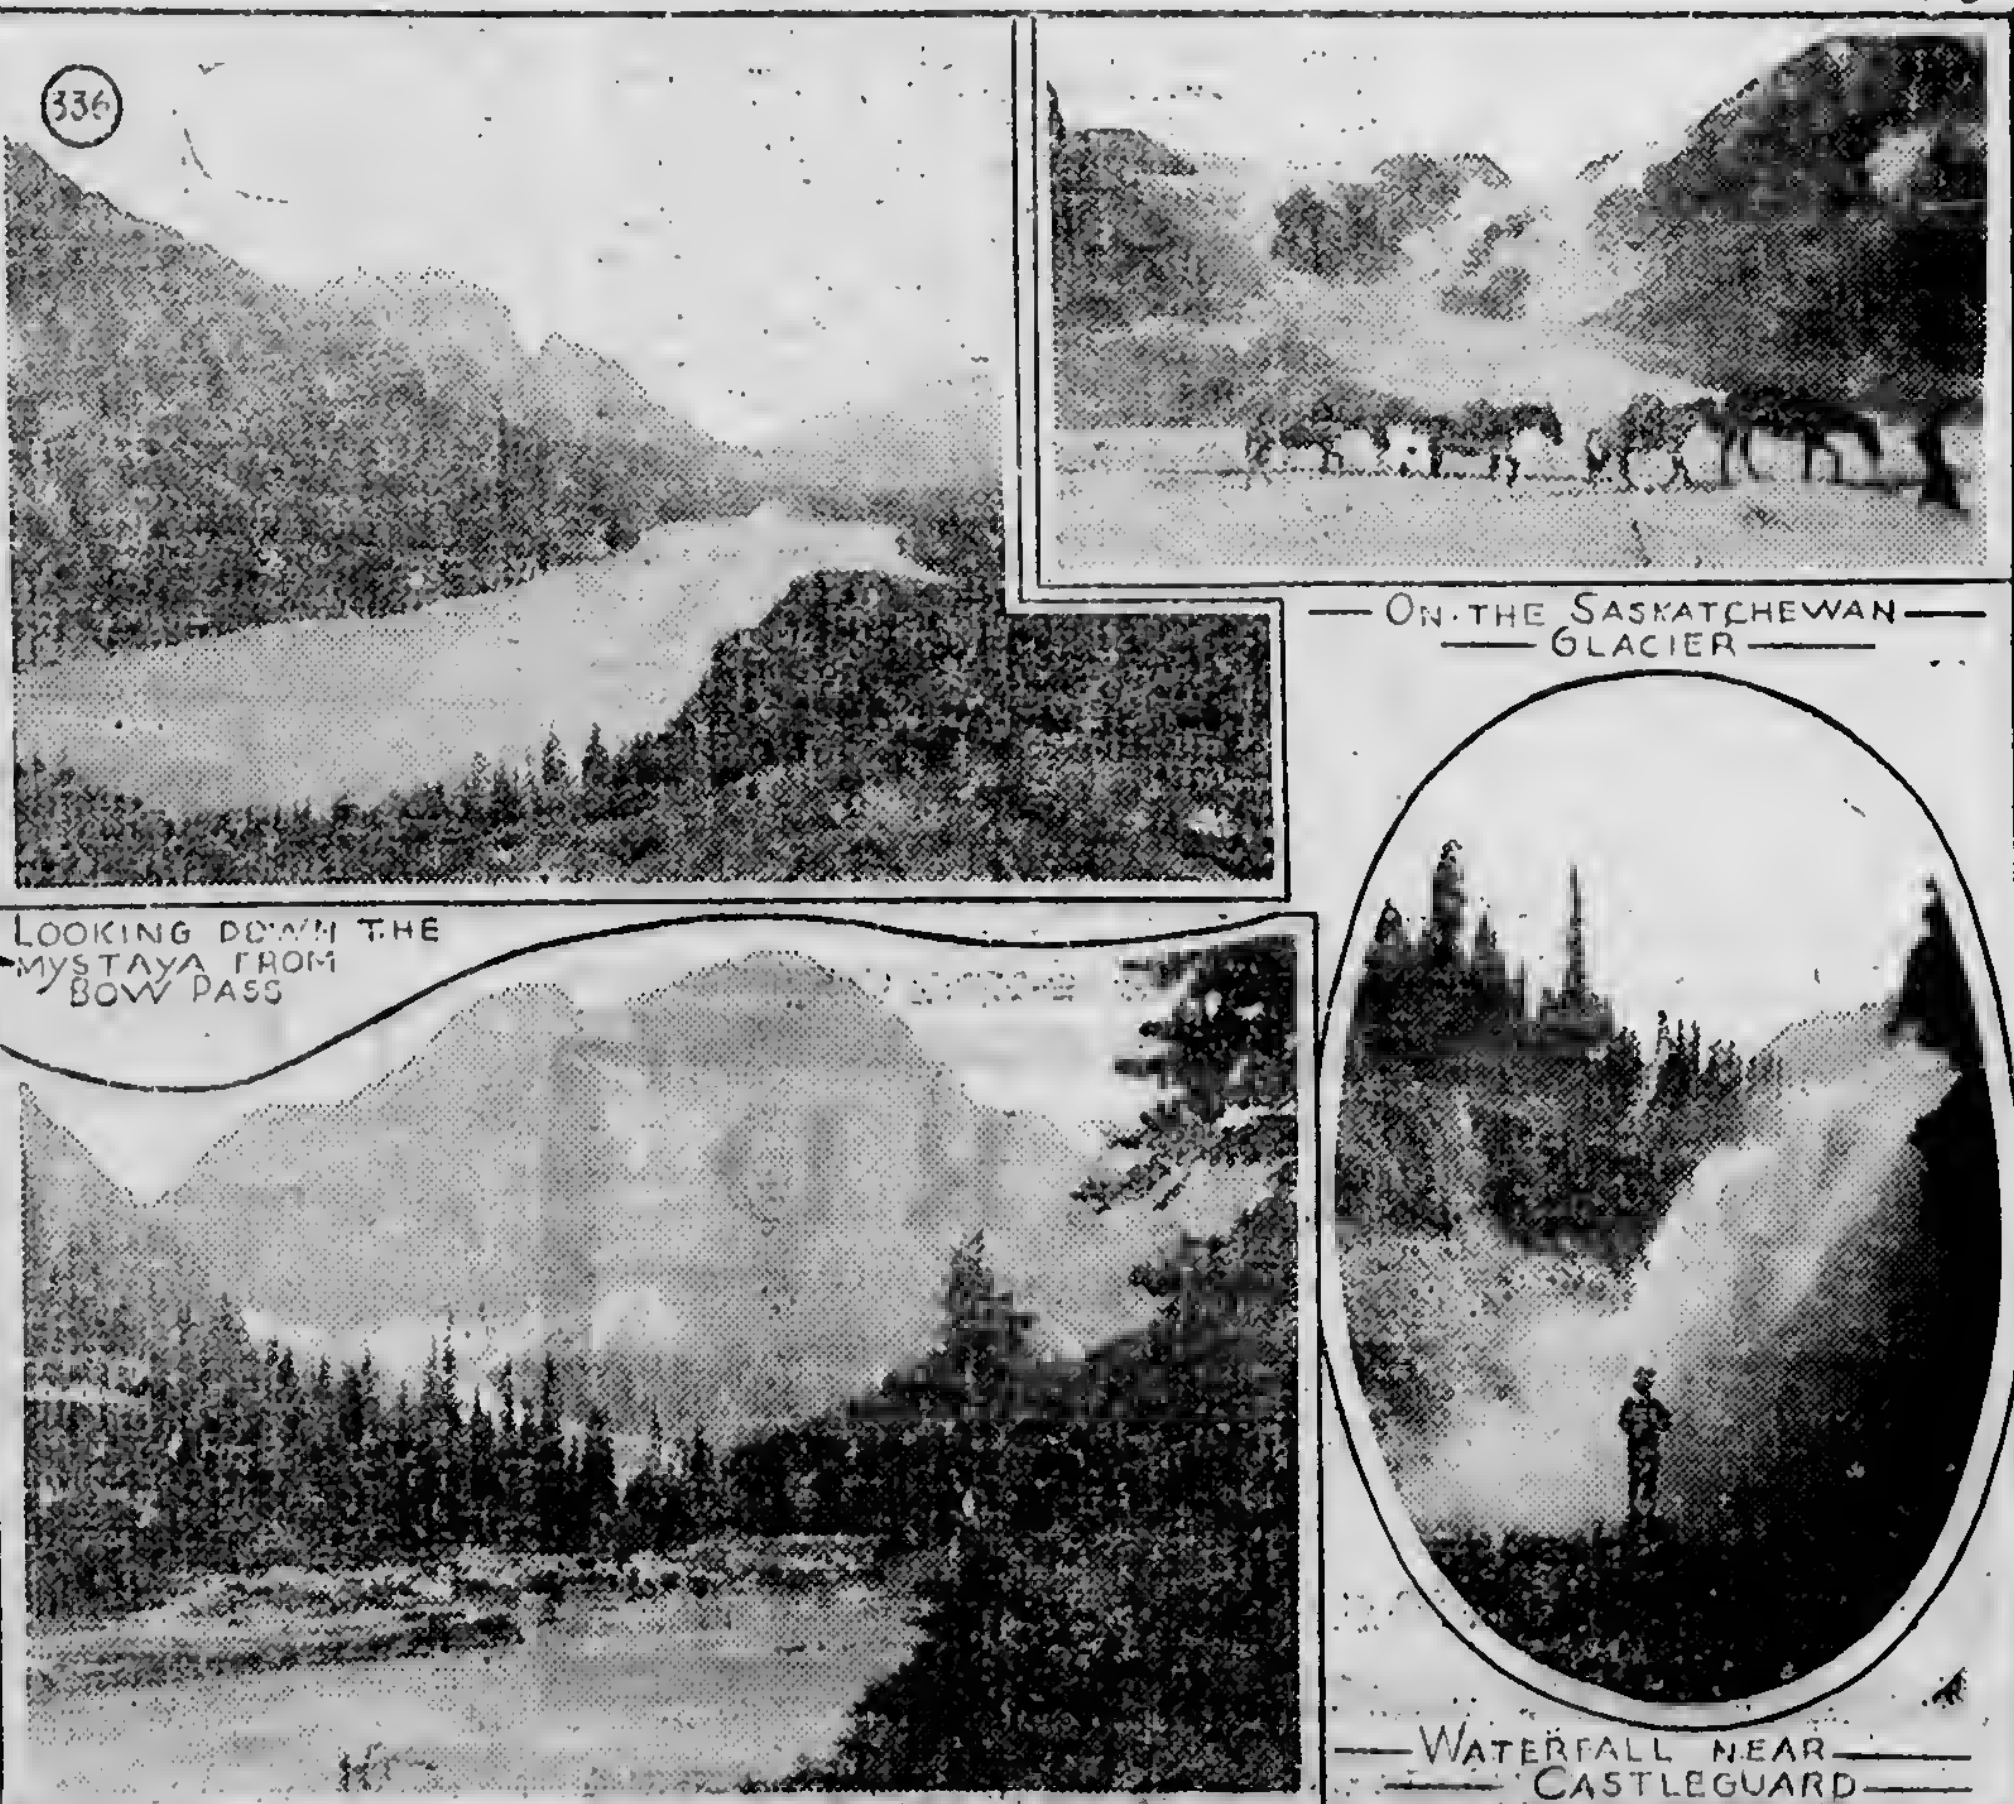

### INJURED DOMINION DAY AT WATERTON DIES IN HOSPITAL

Paige Daines 13 years, son of Mr. and Mrs. Orson Daines, died Saturday morning July 13 at the Cardston Hospital. On Dominion Day at the Waterton park celebration the boy was hit in the eye while playing a game but did not complain much at the time. Later, however, the eye began to swell and last Monday he was removed to the hospital. Infection seemingly had entered the boy's head through the eye rigate starts after plants have wilted succumbing Saturday morning. The community is grief-stricken over the death of this youth which cast a shadow over an otherwise happy celebration.

Mr. and Mrs. Jack Brown, and Mrs. Costley returned Tuesday from a motor trip through B. C. and the western States, after visiting the Calgary Stampede last week.

Thos. Allen returned on Sunday from a two week's vacation at Edmonton and other points. They had a heavy rain while "Tommy" was there.

### Riding on the Roof of the Rockies

Among the most spectacular of the Trail Riders' expeditions of completion of 100 miles of trail riding, will be permitted to join the expedition, since all taking part must satisfy the committee that they will not prove a burden to the rest of the party. For less experienced Trail Riders, or those who cannot spare the time, there will be a four-day ride starting from Banff August 1 and ending at Castle Mountain-Bungalow Camp. It will take in the Egypt Lake district, which will be accessible for the first time this summer, so that those participating in this ride may regard themselves as pioneers. Beautiful Shadow Lake under Mount Ball will be the camp site of the riders on the second day out and, in all, seven glacier-fed lakes will be on the route of the trail.

### YOUR BUSINESS, YOUR STATIONERY AND ADVERTISING

Mr. Businessman, how much prestige does your stationery carry with it when you send it out? Are the type faces, make-up and quality of paper really representative of the status you hold in the commercial world of which you are a part.

Every time you send out a letter, statement or circular, you are judged by the envelope that carries the message, the letterhead on which the message is sent, and the message itself. Very often the impression that your stationery gives forms the foundation for the estimate the recipient of the correspondence makes of you.

You wouldn't think much of a black smith coming to his shop and carrying on his daily work in a white shirt and collar and light flannels for his working clothes; and the result would be very repulsive if doctor or dentist attended you in a pair of grimy overalls, ragged shoes, a black shirt and two day's whiskers on his face, or dirty hands.

This may sound far-fetched, but it most certainly is not. You wouldn't send out a business letter after you had made four or five mistakes in it and soiled and spoiled the surface with numerous erasures. Nor would you pay much attention to a letterhead or envelope which carried the sender's name in mimeograph or put on with a rubber stamp. And there is always something lacking when you open an envelope not printed on the outside and find it contains a message from some business institution.

Now, after all this you will probably say, well, he only says that because he is in the printing business. We need the business, and there's no denying that, but we are also anxious to have the district known far and wide as a progressive wide-awake community, and a good place for home-builders to locate. You may talk all you please, people expect that of us. There are

many a number of ways of showing them and we will point out a few, that we are vitally concerned with.

1st The stationery of the representative business houses and individuals of the community. Every community has its outstanding individuals and business concerns. Use good quality get a type-face and make-up that suits your business or profession, and keep a neat appearing reminder always before the public. We will be glad to assist you with our experience in this matter.

2nd. The home-town paper. Take an interest in it. Help it to represent fairly and honestly the district and its people and enterprises. Phone in items of interest and when you have articles of value and of timely information, we would be pleased to get them. The paper will never be any more to you than you make it. We endeavor to make it newsy, and of interest to all, but if you refuse to co-operate, and always read it in a fault-finding attitude, you will always find something to find fault with.

3rd Help us to make the advertising what it should be. If we have something especially good in Raymond let the world know about it. When you see something in a dealer's ad. that interests you tell him about it, and let him know you are looking for his ad. And in the copy for ads. don't say things you don't mean.

We have one of the best, if not the best district in all of Alberta. Let's all work toward making it better.

## News Notes

F. R. Taylor has relatives from Utah visiting him at the present time.

Mr. and Mrs. Lee Brewerton are enjoying their motor trip immensely according to a card received recently. They will likely be home the first of the week.

Motorists should remember that it is absolutely unlawful to run a car in the city limits with the cut-out open. Offenders will be apprehended and dealt with if this practice is not discontinued.

## Here and There

"It is a good thing we left the tent flap open or he would have ruined the tepee into the bargain," said Belmore Brown, well-known artist who has been painting and sketching in the Rockies for a number of years. He was forced to return to Banff when a bear ransacked his provisions. Brown took the cases out of the tent so he could open and devour them at his convenience. It was possibly the same bear that tore the tent to bits a previous year when Brown thought he could safeguard his supplies by closing his tepee.

Dr. Wang Chung Hui, member of the judicial department of the Government of China, who arrived at Vancouver recently on the Empress of France, en route for the court of international justice at The Hague, of which he is a deputy judge, said when interviewed that China was now completely unified and the Nationalist government firmly in the saddle. The main problem now before the government was that of transportation, he added.

Canada's national wealth is increasing at a rate of nine hundred million dollars a year, according to a computation recently made by the Dominion Bureau of Statistics. Ontario leads in total wealth with \$9,660,775,000. Other provinces follow in this order: Quebec, Saskatchewan, British Columbia, Alberta, Manitoba, Nova Scotia, New Brunswick and Prince Edward Island. While eastern provinces lead in absolute wealth, the western provinces rank highest in wealth per capita.

Canada, it was stated at a recent convention of the International Circulation Managers at Ottawa, has

the largest foreign trade per capita in the world, the two greatest railways and the cheapest electricity. Canada ranks third in the production of the world's gold, third in silver, first in nickel and first in asbestos. More paper is handled in Canada than anywhere else.

A fast 30-foot quarter mile race track built up and surfaced like a good tennis court will be ready for the 40th annual Dominion track and field championships to be held at Banff next Labor Day. The infield has been specially prepared and resawn and the grand stand enlarged. This will be the first time the Dominion championships have been held in Alberta since 1922.

Situated in the heart of the Rockies and of a huge natural game reserve and refuge, the animals at Banff are naturally very tame. Recently a bull elk who had been following with keen interest a game of golf played by Lou Crosby, charter member of the Banff Golf Club, picked up the ball after it had been played onto the 14th green, chewed it and finally dropped it in a bunker. Mr. Crosby is willing to take his affidavit that this occurred as described.

Opening of the Pines Hotel at Digby, Nova Scotia, late in June, marks the interest taken by the Canadian Pacific Railway in Maritime Provinces tourist traffic. The hotel is handsomely appointed with special swimming and golf facilities and is a centre from which many interesting trips through the Evangeline country and all over Nova Scotia can be made.

## SUMMER DIARRHOEA

More babies die in Canada during the month of September than during any other month of the year. The reason for this is because so many of the babies are weakened by attacks of diarrhoea during the hot summer months, they fall victims to second attacks of the disease or to other conditions, which, in their weakened state they are unable to withstand.

In the year 1928, over 4,200 babies died as a result of diarrhoea. This means that, on an average, over eleven babies died each day during the year because of this condition. There are not nearly as many deaths now from this cause as there were only a few years ago, but we are still paying a heavy toll. The progress which has been made is practical evidence that diarrhoea can be largely prevented if we will but take the necessary measures to do it.

The more serious forms of diarrhoea are due to germs which gain entrance to the body in water, milk or other food. The reason why it occurs more frequently in warm weather and why it is commonly known as summer diarrhoea is because, when milk is warm, any germs which are in the milk grow rapidly, and when such milk is given to babies, they receive, as it were, a large dose of germs which cause diarrhoea.

Breast-fed babies seldom have this type of diarrhoea because breast milk is practically sterile; that is, it is free from germs. This is one of the reasons why every child should be breast-fed. The surest and most practical way to prevent diarrhoea is to breast-feed.

For babies who cannot be breast-fed and for older children, milk which is pasteurized should be used. If pasteurized milk cannot be purchased, then it should be pasteurized in the home. After pasteurization, every care must be taken of milk, in order to keep it cold free from dirt and flies. Milk is a most valuable food, but it must be cared for or it is dangerous.

Mothers should realize that if diarrhoea does occur, it is a serious condition, and the time to call a doctor is immediately, not several days later when the baby is acutely ill.

Mr. and Mrs. M. T. King returned home Wednesday after 10 days motor trip, following a visit to the Calgary Stampede.

Supplies for the fall run of the factory are coming in now, cars standing on the siding some empty and others waiting to be unloaded.

H. C. Phipps and E. L. Jensen of Cardston accompanied the ball team from Cardston on Monday for the big double header here.

O. H. Snow and party are away on a short motor trip to Banff, over the Windermere Valley Highway and into Waterton Park. They will be gone a week or ten days.

## Welling News

(From our own correspondent)

Nearly all the hay is now stacked. The grain is all coming in head and another run would be appreciated.

Mr. and Mrs. J. T. Heninger were the only people from here who attended the Calgary Stampede. They returned Saturday evening.

Lee Bullock son of Mr. and Mrs. E. K. Bullock has been sick the past week with tonsillitis.

Peter Fleming was confined to his bed Saturday. He is suffering from leakage of the heart.

Beth Heninger entertained a number of friends Saturday evening. The evening was spent playing games after which a delightful luncheon was served. Those present were: Beth Heninger, Iona Walton, Elmore Peterson, Gladys Peterson, Melba Heninger, Eldon Peterson, Darrel Cox, Glen Bullock and LeRoy Peterson.

A number of young people from here attended the dance in Magrath Saturday night.

Mr. and Mrs. Andrew Walton accompanied by Mr. and Mrs. Ira McBride left Friday morning for a two weeks motor trip to the coast. Mr. and Mrs. McBride leaving their children with their aunt Mrs. C. D. Peterson.

John Salmon and Arthur Dahl were in Welling Sunday at 11:30 to attend Priesthood Meeting.

Mr. and Mrs. N. L. Mitchell attended sacrament meeting here. Mr. Mitchell sang "Come Come Ye Saints".

Mr. and Mrs. W. W. Wilde and family spent Sunday afternoon visiting here.

Mr. and Mrs. Lynn Bullock of Barnwell were visitors here Sunday. They motored over in their new Chrysler 65.

A number of people from here spent Sunday evening at Henderson Lake. Harold Evansen, Clifford Bennett, and Miss Edna Evansen motored over on Barnwell Sunday. Augusta Scheldt returned with them. She will attend the Taber Stampede.

Mr. and Mrs. James Thomson spent the week-end at Diamond City.

Mrs. J. C. Thomson of Cardston spent the week-end visiting with Mr. and Mrs. Henry Thomson and family. Czar Christensen and Leon Peterson spent Monday and Tuesday at Taber and Barnwell.

The Primary officers held an officers' meeting at the home of Mrs. Floyd Wilde's Monday afternoon. Those present were Mrs. Elizabeth Bullock (president), Mrs. Freeda Wilde, Misses General Bullock and Leora Peterson and Mrs. Floyd Wilde.

Mrs. L. R. Workman and children are visiting at Barnwell with relatives. L. R. Workman was here Sunday accompanied by Mr. L. Nelson of Cardston.

Several carloads of Relief Society workers from here attended the Relief Society Convention held in Magrath Tuesday.

## FINAL STAMPEDE WINNERS

North American Championship bucking horse riding with saddle:

1, Earl Thode, Belvedere, South Dakota, \$2,300; 2, Harry Knight, Banff, \$750; 3, Gene Ross, Salmonville, Arizona, \$300; 4, Pete Knight, Crossfield, \$100.

Canadian Championship bucking horse riding with saddle:

1, Herman Linder, Raymond, Alta, \$500; 2, Pete Knight, Crossfield, \$350; 3, Harry Knight, Banff, \$200; 4, Leo Watrin, High River, \$100.

Bareback bucking horse riding contest:

1, Herman Linder, Raymond, \$300; 2, George McIntosh, High River, \$200; 3, Eddie Watrin, High River, \$100; 4, Joe Fisher, Kew, \$50.

Steer riding championship:

1, Frank Sharp, High River, \$100; 2, Smokey Snyder, Kimberley, \$50; 3, Eddie Curtis, Reno, Okla., \$25.

Steer decorating contest:

1, Everett Bowman, Safford, Arizona, \$500; 2, Harry Duckett, Bozeman, Mont., \$300; 3, Elondy Johnson, Tucson, Arizona, \$100.

North American calf roping contest:

1, Everett Bowman, Safford, Arizona, \$1,200; 2, Herb Meyers, Okmulgee, Oklahoma, \$750; 3, Jake McClure, Lovington, N. M., \$300; 4, Iby Mundry, Kaiser, Wyoming, \$150.

Canadian calf roping contest:

1, Floyd Peters, Cardston, \$100; 2, Slim Gates, Weyburn, Sask., \$250; 3, Pete Bruised Head, Blood reservation, \$100; 4, Eddie McCoy, Irricana, \$50.

Boys wild steer riding:

1, Joe Fox, Morley, \$25; 2, J. R. Johnson, Big Valley 13, Streeter, Willow Creek, \$15; 3, E. Johnson, Big Valley, \$10

## HERMAN LINDER CANADIAN CHAMPION

The new champion went into the finals Saturday afternoon high man and he made no mistakes. He hooked his horse in the shoulders leaving the chutes, kept hitting ahead for the first five jumps and came kicking back to the cattle with every jump until the whistle blew.

Harry Knight and Gene Ross finished tied for second and third money

and in the ride-off, the Banff lad out-classed his opponent to win second money.

Linder Bareback Champion  
Herman Linder, the young Raymond cowboy, also won the bareback bucking horse riding contest, which carried with it a final prize of \$300 in cash and the Calgary Brewing and Malting trophy. George McIntosh, of High River, was third, \$100; and Joe Fisher, of Kew, fourth, \$50.

The Canadian calf roping champion ship was won by Floyd Peters, of Cardston. Peters received \$400 in cash and the Sir Henry Thornton trophy.

## FIFTEEN DEATHS IN FIRE DISASTER

Gillingham, Kent, Eng., July 13.—The number of dead in the fire disaster Thursday night reached fifteen this morning with the death of Harold Mitchell, fireman, who succumbed in hospital to burns received in rescue work.

A pathetic story of the passing of little 13-year-old Leonard Winn, a victim, was told in a broken voice by the bereaved father.

"How are the other boys?" the sorrowful naval cadet from the Chatham school asked his parents. "Daddy did they get away? There was no time to do anything. The heat was so terrible. I didn't see what happened to the others," he said.

Concern for their fate continued to occupy his thoughts until the moments of death, with a smile on his lips. Only one body remained unidentified today.

## ADVISES FARMERS TO FEED MORE LIVESTOCK

Bassano Mail: Speaking to a farmer's gathering at the Rotary luncheon in Drumheller on Monday, E. L. Gray, of the department of agriculture, told the audience that they would have to rearrange things for the next few years to combat the downward price of wheat, and that the farmer was now facing critical conditions on account of the downward cycle of wheat values.

"The man who can cut down his production cost to meet prices is the man who will make good," stated Mr. Gray. Quoting statistics based on cost of production in Montana, and which compared favorably with Alberta, the speaker stated that 2 per cent of the farms could produce wheat at 60 cents a bushel, 45 per cent at 76 cents a bushel, 22 per cent at \$1.06, 17 per cent at \$1.37, 6 per cent at \$1.61, 3 per cent at \$1.96, 2 per cent at \$2.19, and 3 per cent at \$3.07. All phases of expenditure were taken in for cost of production.

The speaker advocated mixed farming, and stated that many farmers were now keeping sheep which were found very helpful in keeping down the weed menace, continual grazing by the sheep during the growth of the weeds eventually destroying them. This alone would be a big saving for the farmer, he stated, as much was spent on control of weeds.

"Any farmer who has an aggressive livestock policy will not be buying chemicals, and most grain farmers will have to come to sheep for weeds to cut down costs," said the speaker.

solated companies. Warner Brothers were the first to be licensed to use the disc method in making their "Vitaphone" presentations, which they introduced to the motion picture world in the fall of 1923. A few months later the Fox Case Corporation was licensed to use the film method, and the result was the "Movietone." More recently, Victor Talking Machines, Paramount Famous Lasky, Metro-Goldwyn-Mayer, United Artists, First National, Universal, Hal Roach, Christie, Columbia Pictures, and Harold Lloyd have arranged to use either one or both of these methods.

Photographing and recording a scene by the disc method—that employed for Vitaphone productions—is done in a motion picture studio equipped with special facilities. These include one or more microphones placed about the studio, out of range of the motion picture camera, but near enough to the performers to pick up the desired sounds of orchestra, speaker or vocalist. Sound-proof booths house the cameras, so that no extraneous noises may interfere with the recording. When a scene is to be recorded, the camera photographs it while the microphones pick up the desired sounds.

There's no doubt about it, "talking movies" have set the motion picture world by the ears. By this time, most of the leading producers have announced their intention of using sound in their future productions, either in the form of a musical accompaniment or the human voice. Thousands have seen and heard sound pictures; and wherever you go, movie fans are talking about them.

But while many theatre-goers have enjoyed this new form of screen entertainment, very few of them seem to have even the slightest idea as to how they are made. A bit of inquiry into the matter brings to light all sorts of interesting facts.

duced—so that they might discover the best ways of transmitting and reproducing it—that they developed the successive steps which have led up to this newest thing in motion pictures. Those steps are doubtless fascinating to engineering minds, but to the layman they are a bit too technical for easy understanding. For most of us, it is enough to know that sound has been synchronized with motion picture film. And here is how it is done:

There are two different methods of making sound pictures. The first is known as the "disc" method. With it, the sound is recorded on a wax disc resembling an ordinary phonograph record, at the same time that the motion picture scene is being photographed. With the second method—known as the "film" method—the sound is photographed by means of light variations on the side of the film itself. Both these methods were developed by the Bell Telephone Laboratories for the Northern Electric and as-

## MACHINE GUNS AND AIR-PLANES IN LATEST DRAMA

Although not one of the numerous "war pictures" now current on the American screen, "The Great Mail Robbery," will be shown at the Capitol Theatre Wednesday night only, it contains many experiences of the World War. The scene is not on the battlefields of France, but in the gold country of the United States, where U. S. Marines had been pressed into service to guard the valuable mails.

Anything but a peace-time atmosphere predominates the thrilling action of the film. Temporary warfare was on when a detachment of marines were forced to protect shipment of gold from a gang of bandits. Machine gun warfare was instituted not only by the bandits, but by re-inforcements for the marines who came in airplanes after being summoned by radio for the aid of those in the dynamited train. Giant explosions had completely wrecked the rails and roadbed. Great steel mail cars were twisted by explosives. Bombs were dropped from planes in the effort to rout out the bandits.

This intense action is carried throughout the picture, but is set off by an unusually beautiful romance of the love of a girl for a man who is hunted as a desperate train robber. George B. Seltz, who directed the production, comes fully up to the standard set with his well known earlier productions, "The Vanishing American," and "Wild Horse Mesa." A great cast is to be seen in the film, including a number of veteran actors. Theodore von Eltz is cast as a lieutenant of marines, while Lee Shumway plays the other leading masculine role. Jeanne Morgan, beautiful young player rapidly rising to prominence, has the feminine lead. Others in the cast are Frank Nelson, Dewitt Jennings, Cora Wilson, Nelson McDowell and Charles Hill Malloy.

## Here and There

(342)  
An Indian grave, discovered by accident by Canadian Pacific employees at work near Brooks, Alberta, last May, is considered by experts to be between 300 and 400 years old. It is thought the grave was originally above ground but the passage of centuries had buried the grave below the soil. An irrigation ditch was being constructed when the grave was discovered.

Tri-motored airplanes are being launched in one of the most spectacular fights in the history of aviation. War has been declared by the Canadian Government on the spruce bud worm and the airplane is to be the principal arm of the service. Planes each carry 1,000 pounds of powder, and will dust it while flying low, over the tree tops.

The blueberry industry is showing much improvement in Yarmouth and Shelburne counties, Nova Scotia. Last year there were only 4,000 acres of crown land burned for blueberry growing; this year 10,000 acres have been burned. Value of crop last year was \$65,000 and it is estimated that the crop's value could be increased to half a million dollars.

The province of Alberta has adopted Old Age Pensions, the funds for which are provided by co-operation between the federal and provincial governments. The scheme has now been adopted by all Canadian provinces from the Quebec boundary westward.

Though crops in several parts of Western Canada would be benefited by rains, crop outlook on the whole is very promising. Reports from all parts of Saskatchewan are generally encouraging. The Alberta report is good, especially the Peace River country where present prospects indicate one of the best crops on record. About 25,000,000 acres are sown to wheat in Canada this year. Last year the Dominion harvested over 533,000,000 bushels of wheat, the largest crop in the country's history.

The fourth annual midsummer gathering of the Swedish-Canadian League held a two-day convention at Lac du Bonet, Manitoba, recently and decided to build a home for Old Swedish folks at Winnipeg. Another feature of the gathering was a pageant of old Swedish folk-dancing and songs presented in old-time costumes. Many of the dancers were the same who appeared at the Regina festival held earlier in the year at the Saskatchewan hotel in that city.

A list of extraordinary accidents has recently been published occurring to motorists at level crossings and included the following:—One driver parked car on tracks and went to sleep. 44 motorists drove into the sides of moving trains. 33 drove into the sides of standing trains. One tried unsuccessfully to drive between railway cars while they were switching. Seven went for a drive along the tracks and met express trains. One driver left his car on the tracks while he went to search for something he had dropped on the road; when he returned there was nothing left of his car. Eleven found out too late that their brakes needed relin-

## NEWSPAPER IS BEST ADVERTISING MEDIUM

RESULT OF RECENT EXPERIMENT TOLD BY BUSINESS EXPERT

Roger Babson is one of the outstanding business experts of the world and his words are eagerly watched by men in the highest places in business life, because they carry much weight. Recently, Mr. Babson tried an experiment in advertising, and the results of this test are worth passing on to others.

In his experiment, the purpose of Mr. Babson was to test the relative drawing powers of radio and newspaper advertising. At a cost of \$3,000 he broadcast an advertisement by radio. He received sixteen enquiries and two orders as a result. A few days later he printed his advertisement in five newspapers in different cities, at a cost of \$3,000, and he received 4,000 replies.

On a basis of cost, the radio advertisement cost him \$166.66 for each reply, while the newspaper advertising cost only 75 cents per reply.

As an actual test, made by a man whose findings in business matters are seldom challenged, this is worth a great deal to those who find it essential to use advertising for business building purposes. There are many firms, of course, which use both the radio and the newspapers for advertising purposes, but if they all have the same experience as Roger Babson, the latter medium is the only one which is bringing much in the profitable results.—Brooks Bulletin.
